

MUNEEB ULLAH

Aspiring AI Engineer | Machine Learning Specialist | Data Science Candidate

Email: munibullah157@gmail.com

Phone: +92 318-0387132

LinkedIn: linkedin.com/in/muneeb-ullah-253898298

Location: Khanapul, Rawalpindi, Pakistan

Age / DOB: 22 Years | 12th September 2003

GitHub: github.com/muneeb-112

1. EXECUTIVE CANDIDATE PROFILE

Muneeb Ullah is an ambitious, highly disciplined **Aspiring AI Engineer and Data Scientist** based in Rawalpindi, Pakistan. He possesses a strong foundation in Python programming, machine learning workflows, automated data ingestion (web scraping), computer vision, and interactive business intelligence dashboarding.

Currently undergoing rigorous professional training in the **AI Engineering Course at PNY Training Institute (Rawalpindi)** alongside pursuing an **Associate Degree in Data Science (ADP) from Virtual University**, Muneeb bridges theoretical computer science principles with practical, production-ready AI applications.

Primary Goal: Actively seeking a challenging **AI Engineering Internship / Machine Learning / Data Science Role** in a forward-thinking technology company where he can contribute to real-world AI modeling, data pipelines, and automation solutions while rapidly accelerating his technical growth.

2. PERSONAL & DEMOGRAPHICS METADATA

Attribute	Candidate Data
Full Name	Muneeb Ullah
Date of Birth	September 12, 2003 (12-09-2003)
Current Age	22 Years Old
Residential Location	Khanapul, Rawalpindi, Punjab, Pakistan
Contact Phone	+92 318-0387132 / 03180387132
Primary Email	munibullah157@gmail.com
LinkedIn Profile	https://www.linkedin.com/in/muneeb-ullah-253898298
GitHub Repository	https://github.com/muneeb-112
Current Career Status	Enrolled Student & Self-Directed AI Engineer seeking Internship Opportunities
Work Availability	Immediate availability for Remote, Hybrid, or On-site roles in Rawalpindi / Islamabad

3. EDUCATION & PROFESSIONAL CERTIFICATION

AI Engineering Professional Certification

PNY Training Institute, Rawalpindi Branch | Duration: Feb 02, 2026 – Aug 01, 2026

- Core Focus:** Applied Artificial Intelligence, Deep Learning, Natural Language Processing (NLP), Computer Vision, and RAG (Retrieval-Augmented Generation) Architecture.

- **Key Hands-on Skills:** Building end-to-end Machine Learning pipelines, model deployment, API integration, and vector database retrieval systems.
- **Practical Projects:** Developing intelligent AI assistants, customized chatbots, automated web data scrapers, and predictive ML models.

Associate Degree Program (ADP) in Data Science

Virtual University of Pakistan | Status: Currently Enrolled / In Progress

- **Curriculum Focus:** Fundamental Data Structures, Database Management Systems (SQL), Statistical Inference, Data Analysis, Probability, and Applied Programming.
- **Key Competencies:** Data wrangling, statistical modeling, exploratory data analysis, and relational database queries.

Diploma of Associate Engineering (DAE) in Information Technology

Punjab Board of Technical Education (PBTE), Lahore | 2020 – 2023 | Grade: 71% Marks

- **Core Studies:** Computer Hardware, Networking Protocols, System Software, Programming Fundamentals, Web Technologies, and IT Management.
- **Achievement:** Secured 71% marks through rigorous technical exams and practical lab evaluations.

4. TECHNICAL SKILLS & TOOLS MATRIX

Domain	Tools & Frameworks	Proficiency Level
Programming Core	Python 3.x (Object-Oriented, Scripting, Logic)	Advanced
Data Analysis & Manipulation	Pandas, NumPy	Proficient
Data Visualization	Matplotlib, Seaborn, Power BI	Proficient
Machine Learning	Scikit-Learn (Classification, Regression, Clustering)	Intermediate / Practical
Computer Vision	OpenCV (cv2) (Image Processing, Feature Detection)	Practical Skill
Web Scraping & Automation	BeautifulSoup, Selenium WebDriver	Proficient
Spreadsheet & Business Analytics	Microsoft Excel (VLOOKUP, Pivot Tables, Data Validation)	Proficient
IDEs & Environments	VS Code, Jupyter Notebook, Google Colab	Daily Workflow

5. PROFESSIONAL WORK EXPERIENCE

Self-Directed AI Engineer & Project Developer

Independent AI & Data Science Projects | Present

- Designed and developed customized **Retrieval-Augmented Generation (RAG)** knowledge base systems for personal branding and HR interactive portfolio queries.
- Built automated web scrapers using **BeautifulSoup** and **Selenium** to harvest structured datasets from dynamic websites.

- Performed extensive Exploratory Data Analysis (EDA) on complex datasets using **Pandas**, **NumPy**, and visualized metrics with **Matplotlib** and **Seaborn**.
- Engineered predictive Machine Learning classification and regression pipelines using **Scikit-Learn**.
- Applied **OpenCV (cv2)** for computer vision experiments including face detection, image filtering, and video frame manipulation.

E-commerce Executive

Arkadas Venner Tech | July 2025 – Present

- Managed daily e-commerce operations, online marketplace catalog management, product listings, and order processing workflows.
- Maintained accurate inventory databases and stock tracking using advanced **Microsoft Excel** formulas and formatting.
- Collaborated with operations teams to ensure seamless customer order fulfillment and zero data discrepancy in marketplace databases.

Data Entry Operator

Noor IT Center / Timelapse | January 2024 – June 2025

- Executed high-speed, accurate data entry operations across internal database tools, Microsoft Word, and Excel.
- Responsible for detailed digital record keeping, document verification, and maintain data confidentiality and integrity.
- Achieved zero-error data auditing scores across 18 months of continuous operational performance.

6. CORE COMPETENCIES & SOFT SKILLS

Problem Solving

Continuous Learning

Data Precision & Auditing

Self-Motivation

Technical Communication

Time Management

Adaptability

Muneeb combines intense technical curiosity with strong operational discipline gained from his experience in E-commerce and Data Operations. He is quick to learn new technical libraries, frameworks, and tools.

7. RAG PORTFOLIO Q&A MATRIX (HR ASSISTANT KNOWLEDGE BASE)

Q1: Who is Muneeb Ullah and what is his core specialization?

Muneeb Ullah is a 22-year-old Aspiring AI Engineer and Data Scientist based in Rawalpindi, Pakistan. He specializes in Python programming, Machine Learning (Scikit-Learn), Computer Vision (OpenCV), Web Automation (Selenium/BeautifulSoup), Data Analysis (Pandas, NumPy, Seaborn), and building interactive RAG models.

Q2: What is Muneeb's current educational status?

Muneeb is currently enrolled in the AI Engineering Course at PNY Training Institute, Rawalpindi (Feb 2026 – Aug 2026) and is also pursuing an Associate Degree (ADP) in Data Science from Virtual University. He holds a DAE in IT from PBTE Lahore with 71% marks.

Q3: What role is Muneeb applying for?

Muneeb is actively seeking an **AI Engineering Internship, Machine Learning Internship, or Junior Data Science / Data Analyst role** where he can contribute his practical technical skills and grow alongside senior industry experts.

Q4: Why should a company hire or give an internship to Muneeb Ullah?

Muneeb brings a rare combination of practical hands-on Python/AI development skills and real-world operational experience in E-commerce data management. He has proven self-motivation by building end-to-end AI models, scrapers, and chatbots. He is quick to adapt, eager to learn, and highly dedicated to deliver value.

Q5: What programming languages and libraries does Muneeb master?

Muneeb's primary language is Python. His technical stack includes Pandas, NumPy, Matplotlib, Seaborn, Scikit-Learn, OpenCV (cv2), BeautifulSoup, Selenium, Power BI, Microsoft Excel, and tools like VS Code, Google Colab, and Jupyter Notebooks.

Q6: What is Muneeb's date of birth and contact information?

Muneeb was born on September 12, 2003 (Age 22). He resides in Khanapul, Rawalpindi. He can be contacted via email at **munibullah157@gmail.com** or phone at **+92 318-0387132**. His GitHub profile is github.com/muneeb-112 and LinkedIn is linkedin.com/in/muneeb-ullah-253898298.

Q7: What non-academic work experience does Muneeb have?

Muneeb worked as an E-commerce Executive at Arkadas Venner Tech (July 2025–Present) managing marketplace listings and inventory, and previously served as a Data Entry Operator at Noor IT Center / Timelapse (Jan 2024–Jun 2025) ensuring pristine database accuracy.

RAG Vector Store Optimization Note: This document is specifically engineered with clean semantic hierarchy, standardized metadata headers, and explicit question-answer chunks to maximize retrieval accuracy (precision & recall) when ingested into vector databases (e.g., ChromaDB, FAISS, Pinecone, LangChain, LlamaIndex).
